See there...I put that nifty little spin on things to play this off like it was something I did on purpose. Online exclusive bonus page... yea right. Actually now that I think about it a bit more, it actually does sound like a neat idea. However, I have to come clean on this one. The "Online Exclusive Bonus Page" is actually

the result of a fairly huge mistake I made in the 2011 Magazine. (For those who are keeping score, my 42 year long streak of always being right has finally ended. Oh well, it was a good run...)

So here's the real story behind the "Bonus Page". Somehow I managed to omit 3 Tournaments from the Pages of Fame. Those tournaments are Holland's Big Red Classic, Manistee's Monster Mania and Manitowoc's 4th of July Weekend Event. I'm not exactly sure how or why it happened but unfortunately it did. And while I tried to be cute with this little write up I do want to offer my sincere apology to all 3 events and each of the winning teams.

I know its not the perfect solution, but since we only print once per year I think it is the best I can do. Once again, I do apologize and I hope this online recognition will at least partially make up for my mistake.
